

HEMANTH P P

AI/ML Developer | Full-Stack Web Development

+91 8078006591 | hemanthpp1234@gmail.com | linkedin.com/in/hemanthpp277930304
Thariyapakkunil House, Tholambra P.O, Kannur, Kerala

SUMMARY

Passionate AI/ML Developer and Full-Stack Engineer with hands-on internship experience across AI/ML development, cloud computing, and web engineering. Provided production-ready software — from YOLO-based computer vision pipelines to responsive full-stack web applications — across three consecutive internship programs. Holds certifications in AWS DevOps, IBM Cloud, NPTEL AI (Score: 81%), and Google for Startups. Proven team player with a strong track record of fulfilling assigned tasks with sincerity, precision, and zero missed deadlines.

EXPERIENCE

AI/ML Development Team Intern Techgentsia Software Technologies Pvt. Ltd

June 9, 2025 – June 27, 2025 | Cherthala Infopark, Kerala

- Executed all assigned AI/ML development tasks on schedule within a cross-functional engineering team, demonstrating consistent ownership and professional sincerity throughout a 3-week engagement at a software product company.
- Collaborated with the AI/ML development team on real-world model development tasks, applying Python-based machine learning workflows and contributing to team sprints as a reliable and proactive team player.
- Presented a YOLO-based computer vision detection pipeline, translating business requirements into functional AI software using Python and OpenCV, with zero missed deadlines across the internship duration.

AI-ML Intern CSRBOX & IBM SkillsBuild Internship Program

June 10, 2024 – July 6, 2024 | Remote

- Successfully concluded an intensive 4-week AI-ML internship in collaboration with CSRBOX and IBM SkillsBuild, achieving full program requirements and receiving an IBM-recognized certificate of completion.
- Applied core machine learning concepts to a real-world data project — designed, trained, and presented a working AI prototype on a tight deadline, reinforcing problem-solving and rapid prototyping skills.
- Operated effectively in a remote, collaborative team environment, coordinating with peers and program mentors to produce high-quality project outputs within the stipulated 4-week timeline.

Web Development Intern Keltron Technologies

May 2023 – July 2023 | Remote

- Implemented targeted website updates and resolved front-end bugs across live pages using HTML, CSS, and JavaScript, improving UI consistency and overall site stability.
- Diagnosed and fixed cross-browser compatibility issues, accelerating QA turnaround and ensuring responsive, pixel-accurate rendering across desktop and mobile viewports.

PROJECTS

Agency OS — Marketing Campaign Management Dashboard React · Next.js · TypeScript · Tailwind CSS · Redux · Django REST Framework · PostgreSQL · LLM API · Three.js · Framer Motion

- Architected and deployed a full-stack marketing campaign dashboard end-to-end — React/Next.js frontend, Django REST Framework backend, and PostgreSQL database integration — demonstrating total ownership of the software development lifecycle.
- Integrated LLM API for automated content workflow generation, implemented REST API endpoints with DRF serializers for data validation, and added rate-limiting and CORS headers for production-level API security.
- Authored unit tests to verify full request-response correctness and resolved performance bottlenecks, achieving a measurably smoother user experience across devices.

Student Management System — CRUD Web Application C++ · Object-Oriented Programming · Data Structures · File I/O · CRUD Architecture

- Designed and built a fully functional Student Management System in C++ implementing full CRUD (Create, Read, Update, Delete) operations, demonstrating strong programming fundamentals and data management skills.
- Applied object-oriented programming principles and file I/O for persistent data storage, producing a robust, modular application structure suitable for real-world academic record management.

KEY ACHIEVEMENTS

NPTEL AI — 81% CONSOLIDATED SCORE

Achieved 81% in NPTEL's Artificial Intelligence: Concepts & Techniques course (IISc Bangalore, Jul–Oct 2025), ranking among top performers in a nationally recognized, exam-proctored program.

AWS + IBM CLOUD CERTIFIED

Holds dual cloud certifications — Fundamentals of DevOps on AWS (Simplilearn/AWS) and Cloud Computing Fundamentals (IBM SkillsBuild) — evidencing applied knowledge of modern cloud infrastructure and DevOps pipelines.

THREE AI/ML INTERNSHIP PROGRAMS

Finished three distinct internship roles across AI/ML and web development domains, demonstrating consistent professional reliability, technical adaptability, and cross-team collaboration skills.

TECHNICAL SKILLS

LANGUAGES

Python | C++ | JavaScript (ES6+) | SQL

AI / ML

Machine Learning | Computer Vision | YOLO / OpenCV
LLM API Integration | Prompt Engineering

WEB & FRAMEWORKS

HTML5 | CSS3 | React.js | Next.js | Tailwind CSS | Django REST
REST APIs | PostgreSQL

CLOUD & DEVOPS

AWS (DevOps) | IBM Cloud | Git / GitHub | CI/CD Concepts

CORE

Data Structures | OOP | Problem Solving | Agile / Teamwork

LICENSES & CERTIFICATIONS

Fundamentals of DevOps on AWS
Simplilearn / AWS SkillUp · May 25, 2026

Cloud Computing Fundamentals
IBM SkillsBuild · April 30, 2026

Artificial Intelligence: Concepts & Techniques
NPTEL / IISc Bangalore · Jul–Oct 2025 · Score: 81%

Startup School: Prompt to Prototype
Google for Startups · December 29, 2025

Project Management Fundamentals
IBM SkillsBuild / IPMA · July 5, 2024

EDUCATION

B.Tech — Computer Science & Engineering
Cochin University College of Engineering Kuttanad (CUSAT)
Graduated: 2024

HSE (Class XII)
GHSS Malur
2020 – 2022

LANGUAGES

English | Malayalam
Professional | Native
